ABOUT MERCY CORPS

Come see what we see.

The world is more fragile than ever. Conflict has uprooted millions of innocent people, leaving them hungry and without a home. Childhoods are lost to poverty. Women and girls lack opportunity. Entire communities sit vulnerable to disaster.

It's easy to see a world of impossible problems. Instead, we see an opportunity to create transformative change.

We see the world differently.

We know that with the right support, people have the power to transform their communities. That's the path to a better world. Our integrated approach is designed to meet the world's toughest challenges, wherever they occur.

So we act differently.

In more than 40 countries, we partner with local communities to put bold solutions into action, helping people triumph over adversity and grow stronger from within. For the mother who wants a healthy future for her children, for the refugee who dreams of returning home—for millions of people filled with the power of possibility—Mercy Corps provides the tools to build a better, stronger world.
