**Brief Summary Description of Project:**

Mercy Corps is committed to supporting the Government of Ethiopia (GoE) to address the challenge posed by the large influx of refugees into the country. Ethiopia has the second largest refugee population in Africa, second only to Uganda. The official refugee population is more than 905,000 individuals, composed of mainly South Sudanese (48%), Somalis (28%), Eritreans (18%), and Sudanese (5%) living in 25 refugee camps in peripheral regions of the country. The largest populations are in Gambela Region (44% of refugees) and Somali Region (28%).

The scale of the refugee numbers, and the long-term nature of the challenge (many refugees have been living in the country for more than 20 years), requires new thinking and innovative solutions. This has been recognized by the GoE through its support for the Comprehensive Refugee Response Framework (CRRF), and through the draft of a ‘National Comprehensive Refugee Response Strategy’ (NCRRS) by the Administration of Refugee and Returnee Affairs (ARRA). The NCRRS includes ‘Nine Pledges’ that ultimately aim to create productive and self-reliant citizens among refugees and host communities.

Mercy Corps has extensive expertise in developing sustainable solutions to complex humanitarian challenges. We employ a systems-strengthening approach to improve human and social capital; and to link, strengthen and expand systems critical to improving household incomes and resilience at the individual, community and systems level.

Mercy corps in partnership with DCA is about to implement a market system program that is WFP Funded (supported by SIDA and DANAID) in the Gambella region. It aims to support the long standing challenges of refugees and host communities and proposed action contributes to the EU’s commitment to supporting the Comprehensive Refugee Response Framework (CRRF), and SDGs 1, 5, 8 and 10, including the Decent Work and Economic Growth goal. The action also supports the Government of Ethiopia’s (GoE) CRRF pledge, including the signing of the New York Declaration for Refugees and Migrants in September 2016 and the revision of Ethiopia’s Refugee Proclamation in January 2019. For this reason, Mercy Corps is planning to conduct market system assessments to better understand needs and opportunities, focusing on Gambella region.

5. Scope of Work/Technical Specifications

5.1 Background

Title: Assessment of selected market systems in Gambela
Project Location(s): Gambela (in selected refugee camps)

1. Background

Mercy Corps is an international humanitarian and development organization whose mission is to reduce suffering, poverty and oppression by helping people build secure, productive and just communities. Mercy Corps has been operating in Ethiopia since 2004, working in rural, peri-urban and urban areas in five regional states - Somali, Oromia, Afar, Southern Nations Nationalities and Peoples, Amahara - and the capital city of Addis Ababa. We engage in both development and humanitarian work, and seek to integrate approaches, programs and geographies as much as possible. Our partners include government, academic institutions, development and private sector actors, civil societies and participating public.

Mercy Corps is committed to supporting the Government of Ethiopia (GoE) to address the challenge posed by the large influx of refugees into the country. Ethiopia has the second largest refugee population in Africa, second only to Uganda. The official refugee population is more than 905,000 individuals, composed of mainly South Sudanese (48%), Somalis (28%), Eritreans (18%), and Sudanese (5%) living in 25 refugee camps in peripheral regions of the country. The largest populations are in Gambela Region (44% of refugees) and Somali Region (28%).

The scale of the refugee numbers, and the long-term nature of the challenge (many refugees have been living in the country for more than 20 years), requires new thinking and innovative solutions. This has been recognized by the GoE through its support for the Comprehensive Refugee Response Framework (CRRF), and through the draft of a ‘National Comprehensive Refugee Response Strategy’ (NCRRS) by the Administration of Refugee and Returnee Affairs (ARRA). The NCRRS includes ‘Nine Pledges’ that ultimately aim to create productive and self-reliant citizens among refugees and host communities.

Mercy Corps has extensive expertise in developing sustainable solutions to complex humanitarian challenges. We employ a systems-strengthening approach to improve human and social capital; and to link, strengthen and expand systems critical to improving household incomes and resilience at the individual, community and systems level.

Mercy corps in partnership with DCA is about to implement a market system program that is WFP Funded (supported by SIDA and DANAID) in the Gambella region. It aims to support the long standing challenges of refuges and host communities and proposed action contributes to the EU’s commitment to supporting the Comprehensive Refugee Response Framework (CRRF), and SDGs 1, 5, 8 and 10, including the Decent Work and Economic Growth goal. The action also supports the Government of Ethiopia’s (GoE) CRRF pledge, including the signing of the New York Declaration for Refugees and Migrants in September 2016 and the revision of Ethiopia’s Refugee Proclamation in January 2019. For this reason, Mercy Corps is planning to conduct market system assessments to better understand needs and opportunities, focusing on Gambella region.

2. Objectives

The primary objectives for this Scope of Work (SoW) is as follows:

Objective 1. Identify priority market systems, and conduct market system assessments
Objective 2. Provide recommendations for interventions in selected market systems

Objective 1. Market system assessments

The market system focus for this assessment are the Agriculture markets (Crop, Livestock, Fishery, poultry), Financial markets, and Labor Market

This objective will require a two-step process:

i) Selection of priority market systems;

ii) Undertake market assessments and analysis for the selected market systems.

The selection of priority market systems will use a ‘Market system selection matrix’ approach. This will consist of a five-step process, as follows:

Step 1. The assessment team will identify the criteria to be used in selecting priority market systems.

Step 2. The assessment team will develop a long-list of potential market systems, in consultation with key stakeholders.

Step 3. The assessment team will undertake a first-round scoring process of each market system, against the criteria.

Step 4. Where there are gaps in knowledge, that prevent the assessment team from undertaking the scoring with confidence, the assessment team will undertake rapid information-collection through key informant interviews.

Step 5. The assessment team will finalize the ‘Market system selection matrix’, and make the final selection of priority market systems, again in a participatory way that involves key stakeholders.

The number of market systems selected will be determined in coordination with the Mercy Corps program team. It is anticipated that approximately six market systems will be selected, depending on their complexity. Having selected the markets, the assessment team will next conduct detailed market assessments and analysis for each. The market system assessments should use Mercy Corps methodology, including analysis of the market system functions, market actors and relationships, and the key capacities, constraints and incentives in each market system. The market assessment should integrate gender analysis throughout, and be conducted using a gender-sensitive approach. The assessments should also provide an overview of political-economy dynamics in each market system, and should take account of relationship-dynamics between refugee and host communities, both of which will help to inform a do-no-harm approach. The market assessments should be conducted in an iterative way, so that the assessment team is able to react to new information received and adapt the interview questions and market actors targeted.

Objective 2. Recommendations for interventions

This objective will provide recommendations for interventions for each of the selected market systems. This will include:

- Review of existing livelihood interventions, and advice on how a market systems approach can build on existing work (and also what pitfalls existing interventions pose)
- List of intervention response options for each market system, showing clearly the linkage to improve outcomes for refugees and/or host communities, including fostering improved relationships between the two groups
- Recommendations for potential lead firm partners, for each market system

3. Deliverables

Unless mutually agreed, change to the SOW by Mercy Corps does not apply to change Services timely and fully delivered and performed before the date of the change. If any change causes an increase or decrease in the cost of, or the time required for, Contractor’s performance, an equitable adjustment may be made in the SOW or Payment Terms or both, if such adjustment is set forth in an amendment signed by Mercy Corps’ and Contractor’s Authorized Representative.

4. **Invoicing and Payment.**

Such notice shall clearly state the specific Services disputed, and Mercy Corps’ reason for disputing the performance of the Services. If both parties accept the dispute of the invoice, they shall agree in writing as to the steps required of Contractor to ensure that the performance of the disputed Services is subsequently completed in accordance with the Additional Terms, and the time required of Contractor to complete the Services.

b. In the event Statement of Services does allow for reimbursement of Contractor expenses, such expenses must be reasonable and included in the scope of allowable expenses stated in Schedule I and fully documented with receipts and any other documentation reasonably necessary for Mercy Corps to determine the costs were reasonable and properly incurred.
